

COPEC S.A.

**QUALITY, OCCUPATIONAL
HEALTH AND SAFETY, AND
ENVIRONMENTAL POLICY**

SINCE 1935, COPEC HAS DEVELOPED A STRATEGIC ACTIVITY FOR THE COUNTRY, CREATING A LOGISTICS, FUEL DISTRIBUTION, LUBRICANTS, AND CONSUMER SERVICES STRUCTURE, WHICH IS CRUCIAL TO CHILE'S ENERGY MATRIX AND GROWTH. A PERMANENT AND DEEP COMMITMENT THAT WE RENEW EVERY DAY.

COPEC's Quality, Occupational Health and Safety, and Environmental policy aims to create a reference framework to carry out its operations.

These pillars enable the establishment of a Management System that benefits COPEC's employees, contractors, customers, and the communities where it operates.

Likewise, the model also involves moving toward objectives and goals, reviewing results, and correcting and improving practices.

The Safety cornerstone is a key factor in **COPEC's** culture, mainly because it considers health and risk prevention, but above all, quality of life, making a commitment to its workers, integrating them and making them part of the company's vision.

COPEC is committed to **protecting the planet, its resources, and respecting the environment**, working to mitigate, offset, and repair the impacts of its activities.

Under the principles of sustainable development and value creation, the aim is to build bonds of trust, respect, and constructive relationships with neighboring communities.

The corporate culture promotes strict compliance with current legal regulations and the company's **principles, values, and ethics**.

COPEC is committed to providing excellent service to all its customers based on an understanding of their needs and a high standard proposal.

The implementation of this policy is a commitment made by all levels of COPEC, starting with its Board of Directors and carried out by all company personnel.

A handwritten signature in black ink, consisting of stylized, flowing letters that appear to read 'Arturo Natho Gamboa'.
